

SPECIFIC TREATMENT FOR PARQUET

- Ideal for lacquered, resinous and untreated parquet.
- It restores the gloss of very damaged surfaces.
- It protects against stains and abrasions.

SUGGESTIONS

For daily maintenance of parquet floors it is advisable to use diluted neutral detergents without rinse IP62 (IP Pavimenti Line) and ALLUX FRESH, taking care to spread them with a well-wrung and never wet microfiber cloth.

For an optimization of times and tools, it is also suggested to spread PARQUET CARE with wax spreader, thus avoiding the waste and maximizing the end result.

DESCRIPTION

Resorts, hotels, restaurants, gyms, offices and homes are often characterized by parquet flooring which need consistently care and maintenance.

For this purpose, we created PARQUET CARE, a specific product for maintenance and/or renovation of lacquered, resinous and untreated parquet.

Used pure it is ideal for restoring shininess and protection of very damaged parts; but it is also indicated diluted, through the "spray buffing" method, or as a "wash-and-wax" to treat surfaces in parquet flooring that are subject to wear, exalting its splendor.

In addition, PARQUET CARE protects against stains and abrasions and it is endowed of anti-slip properties.

SPECIFIC TREATMENT FOR PARQUET

PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance	Liquid emulsion
Colour	Milky
Odour	Characteristic
Specific weight	1.025 ± 0.01 g/ml
Solubility in water	Complete in all ratios
pH	7.5-8.0

FOAMING POWER

None

AVAILABLE PACKAGING

Box of 12 bottles - 1L each - 016PARQ0012

USE MODALITY

For waxing: use pure, spreading on a clean parquet one or two doses of product, and wait for the full drying between a coat and the other (about 60-90 minutes).

For use with the "spray buffing" method: dilute the product at 25% in water (250 ml / L), spread and let it dry. Finally, to polish wipe with white pad at medium speed.

As a "wash-and-wax": dilute the product at 3% -5% in water (30-50 ml / L). Wipe with a cloth and let it dry.
